

## Cluster 3: Logistics and Freight

Nectar Cluster 3 Sessions at the International NECTAR Conference in Ponta Delgada, Acores, Portugal

Cluster 3 organized two sessions on 'Sustainable Logistics'. Works and projects have been presented in a welcoming and enjoyable environment chaired by Sandra Melo and Cathy Macharis. Considering the coherence of the papers presented in Azores, results will be selected for publication on the book 'Sustainable Logistics', having Cathy Macharis, Sandra Melo, Johan Woxenus and Tom van Lier as guest editors.

### List of Papers

'Electric vehicles in city logistics: An analysis of fleet managers perception' by Philippe Lebeau, Cathy Macharis, Joeri Van Mierlo, Kenneth Lebeau 'Urban freight electric mobility initiatives in The Netherlands' by Rob Konings 'Using electric commercial vehicles for urban logistics and city distribution: In what conditions can it succeed?' by Sandra Melo, Patricia Baptista, Álvaro Costa, Tiago Farias 'An external cost calculator tool for assessing the sustainability of logistic solutions' by Tom van Lier, Cathy Macharis 'Impacts of climate change on transport by inland navigation a multimodal approach for the Rhine and the Danube' by M. Beuthe, Bart Jourquin, N. Urbain, F. Bruinsma, I. Lingemann, B. Ubbels, E. Va 'The cargo tram: Current status and perspectives, the example of Brussels' by Mathieu Strale 'Sustainable city distribution: Options and evaluation' by Cathy Macharis, Lauriane Milan, Sara Verlinde

### Call for papers for special issue and new Nectar cluster meeting

In consideration of future activities in the NECTAR Cluster 3 ("Logistics and Freight") we wish to inform you about the following initiative. We are also planning to organize a Nectar Cluster Meeting in Algarve, Portugal in Spring 2014. We will soon send a call for papers to that event, which results we expect to publish in a Special Issue of a renowned Transport journal.
